EXECUTIVE SUMMARY

Results-driven Full-Stack Developer specializing in **Next.js**, **TypeScript**, and headless CMS solutions (**Sanity**). Actively pioneering in **Agentic AI** and Python-driven automation to engineer intelligent, scalable, and high-performance web applications. Demonstrated expertise in translating complex UI/UX designs into pixel-perfect responsive frontends, paired with seamless data integration and API orchestration.

TECHNICAL SKILLS

Frontend:	Next.js, React, TypeScript, HTML5, CSS3, Tailwind CSS, Responsive Web Design
Backend & CMS:	Sanity CMS, Headless Architecture, RESTful API Development, Data Migration, Webhooks
AI & Automation:	Agentic AI Frameworks, Python Automation, Intelligent Multi-Agent Systems
Developer Tools:	Git/GitHub, Docker, VS Code, Figma, Gemini CLI

PROFESSIONAL EXPERIENCE

Full-Stack Developer | Freelance / Project-Based *Karachi, Pakistan*

- **E-Commerce & Dynamic Web Applications:** Engineered and deployed specialized responsive platforms—including Gym, Fast-Food, and Furniture applications—boosting user engagement through modern UI/UX structures.
- **CMS Architecture & Migration:** Integrated Sanity CMS to enable dynamic content management; authored comprehensive technical documentation for efficient data migration and third-party API integration.
- **UI/UX Modernization:** Executed deep visual overhauls and strategic UI redesigns to eliminate boilerplate aesthetics, ensuring unique, high-performance, and brand-aligned digital experiences.

FEATURED PROJECTS

Screenshot-to-UI (Gemini CLI)

- Built an automated tool leveraging the Gemini API to analyze visual screenshots and instantly generate structured, semantic, and clean HTML/CSS code.

Python AI Agent Implementations

- Developed functional, goal-oriented AI agents capable of handling automated decision-making logic, custom triggers, and robust exception flows.

Next.js High-Performance Portfolio

- Designed a fully optimized, multi-page professional portfolio showcasing advanced Tailwind CSS animations and modular, reusable component design.

Dynamic E-Commerce Suite

- Programmed customized client applications featuring complex cart logic, state management, and real-time product listings fetched dynamically via Sanity CMS.

EDUCATION & CERTIFICATIONS

Governor Initiative for Artificial Intelligence & Computing (GIAIC) *Ongoing*

Advanced Specialization in Web Development, Web 3.0, Metaverse & Agentic AI

Shah Abdul Latif University *Graduated: 2024*

Bachelor of Science (BSc)
